

2010 STUDENT SHADOWING PROGRAM

We are looking forward to another exciting shadowing program in February 2010 and are inviting you to be a participant. In cooperation with the FHE, the Wisconsin Chapter of ACHE is sponsoring and coordinating its fourth annual Student Shadowing Program. We are scheduling this event in February with Groundhog Day and the theme of “shadowing.”

You are invited to participate!

The specifics of the program are:

- The shadowing experience will take place around Groundhog Day, February 2, 2009.
- The experience will be coordinated with the members of the Wisconsin Chapter of ACHE and UWM Future Healthcare Executive student members.
- NEW for 2010: post bachelorette chapter members from GE Healthcare’s Commercial Leadership Program will also be participating in the shadow experience
- Students are being asked to indicate their preference for the type of facility and geographic location:
 - Ambulatory
 - Insurance
 - System
 - Long Term Care
 - Acute Care:
 - Hospitals under 100 beds
 - Hospitals over 100 beds
- Students will be “matched” with preceptors and have an opportunity to shadow for one day. This will provide a great opportunity to truly experience a day in the life of a health care leader.
- Students will be expected to wear business attire and assume responsibility for travel costs, etc.
- Students will sign a confidentiality statement prior to their shadowing experience.

If you would like to join in this great event, please contact Andy Hillig by December 15 at andrew.hillig@wfhc.org or by phone at 414-750-2283. Please indicate the type of organization in which you work. We hope you choose to participate and have a great experience, like so many others have the past two years.

Thanks for your help; let’s make this another successful project in 2010.
